| 9/29/2026 | Greater Indianapolis Town Hall | Attendee (Luke) | Home and Community-Based Services | Asked how autistic advocates can push back against perceived efforts toward renewed institutionalization and support community-based living.                                                                                                                    | Thank you for sharing your experience. INSILC will gather all the comments and questions, both voiced and not voiced during the event, and share it with FSSA. We will report back whatever we learn.                                                                         | <a href="#">09.29.2026 Greater Indianapolis Town Hall Transcript - WORD</a> | <a href="#">09.29.30 Greater Indianapolis Town Hall Transcript - PDF</a> |
| 9/29/2026 | Greater Indianapolis Town Hall | Attendee        | Home and Community-Based Services | Hours/supports reduced; concern that cutting supports needed to get to and from work discourages employment, reduces income, and increases reliance on public benefits. Asked about Medicaid reform, Medicaid Buy-In, and incentives for economic independence. | Thank you for sharing your experience. INSILC will gather all the comments and questions, both voiced and not voiced during the event, and share it with FSSA. We will report back whatever we learn.                                                                         | <a href="#">09.29.2026 Greater Indianapolis Town Hall Transcript - WORD</a> | <a href="#">09.29.30 Greater Indianapolis Town Hall Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting   | Jeremy Warriner | Transparency and Responsiveness   | Meeting materials, goals, objectives, and proposed combinations should be available to the public before discussion so attendees can follow along and provide meaningful feedback.                                                                              | The 2027-2030 draft goals and objectives were not shared before the meeting because the Committee needed to approve them. The draft goals and objectives are now available on the State Plan page at INSILC.org as well as ways to give feedback.                             | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a>     | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a>   |
| 9/21/2026 | State Plan Committee Meeting   | Jeremy Warriner | SPIL Goals/Objectives/Indicators  | Combining objectives may allow progress on one area to mask lack of progress on another area.                                                                                                                                                                   | The objective combinations discussed during the meeting removed duplication without removing attention to important issues.                                                                                                                                                   | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a>     | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a>   |
| 9/21/2026 | State Plan Committee Meeting   | Jeremy Warriner | Public Input/Comment              | Requested stronger public engagement and clearer opportunities for the public to understand and comment on draft goals and objectives.                                                                                                                          | INSILC will work to share widely the drafts of the 2027-2030 State Plan throughout the process and encourage people with disabilities and others to give input. We welcome assistance; to get involved email <a href="mailto:Info@IndianaSILC.org">Info@IndianaSILC.org</a> . | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a>     | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a>   |

|           |                              |                 |                                        |                                                                                                                                                              |                                                                                                                                                                                                                                                                   |                                                                         |                                                                        |

| 9/21/2026 | State Plan Committee Meeting | Jeremy Warriner | SPIL Goals/Objectives/Indicators       | Suggested goals should demonstrate how they are measurable and achievable rather than being broad statements only.                                           | INSILC agrees that all goals should be measurable and achievable. Those details will be included when we share the first draft of activities and evaluation methods that will correspond to the objectives, which will also be open for public input.             | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Brianna         | SPIL/CAP Writing Process and Approvals | Asked what data sources and input were used to develop the goals, including public input, staff input, and other sources.                                    | The list of data sources that inform the 2027-2030 draft goals and objectives are listed at <a href="#">INSILC.org / 2027-2030-state-plan</a> .                                                                                                                   | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Brianna         | SPIL Goals/Objectives/Indicators       | Asked whether the goals were ordered by importance or organized in another way.                                                                              | The 2027-2030 draft goals were ordered to put people first through goals one and two, followed by systems change and strengthening the network.                                                                                                                   | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Amanda          | INSILC Outreach                        | Questioned how the proposed approach would reach and engage individuals directly rather than focusing only on partnerships with organizations.               | INSILC engages with individuals through meetings and events; and Centers for Independent Living partner with individuals through their services. The State Plan mentions ways to work with individuals and organizations to affect change on more than one level. | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Teresa          | Public Input/Comment                   | Stated that public events did not clearly explain the purpose of the State Plan or provide informed opportunities for participants to give State Plan input. | INSILC mentions the State Plan and the impact of public comments at all events.                                                                                                                                                                                   | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Teresa          | Transparency and Responsiveness        | Expressed concern that reported public engagement numbers created a misleading impression about the amount of informed public input received.                | INSILC's Engagement Activities Report provide simple totals of the various ways we've interacted with individuals. Full detail about the public input we've received is publicly available through this dashboard for anyone to investigate.                      | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |

|           |                              |                  |                                 |                                                                                                                                                                                    |                                                                                                                                                                                                                                                                       |                                                                         |                                                                        |
|-----------|------------------------------|------------------|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|------------------------------------------------------------------------|
| 9/21/2026 | State Plan Committee Meeting | Christian Fuller | Transparency and Responsiveness | Questioned whether participation and comment totals overstated the amount of unique public input because some individuals attended and commented at multiple events.               | The Engagement Activities Report shares the number of comments received and the number of comments as separate numbers. The number of commenters is unique, meaning if someone gives multiple comments, that person is only counted once within number of commenters. | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Christian Fuller | Transparency and Responsiveness | Expressed concern that reported public comment counts did not accurately reflect the number of distinct participants providing input.                                              | The Engagement Activities Report shares the number of comments received and the number of comments as separate numbers. The number of commenters is unique, meaning if someone gives multiple comments, that person is only counted once within number of commenters. | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Theresa          | Transparency and Responsiveness | Stated that participants were not clearly informed that their comments would be used in State Plan development and characterized this as a transparency concern.                   | INSILC mentions the State Plan and the impact of public comments at all events.                                                                                                                                                                                       | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Linda Greeno     | Accessibility and Accommodation | Raised concerns about communication access, interpreter availability, and ensuring Deaf, hard of hearing, and DeafBlind individuals are represented and able to participate fully. | Thank you for raising these concerns. The State Plan Committee will consider this when drafting goal activities. INSILC has contacted Linda about these concerns.                                                                                                     | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/21/2026 | State Plan Committee Meeting | Linda Greeno     | IL Philosophy                   | Questioned who would represent and speak for Deaf people within broader disability representation and decision-making efforts.                                                     | Neither the State Plan or INSILC seeks to designate one individual or group to represent an entire community. We will continue working to ensure we receive input from every disability community and to reflect that input accurately.                               | <a href="#">09.21.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">09.21.26 State Plan Committee Meeting Transcript - PDF</a> |
| 9/9/2026  | Council Meeting              | Brianna          | Transparency and Responsiveness | Questioned why a follow-up meeting with Everybody Counts was canceled after agreement to continue discussions and asked what made the conversation seem unnecessary.               | INSILC has provided answers on this matter in the meeting and in writing.                                                                                                                                                                                             | <a href="#">09.09.26 Council Meeting Transcript - WORD</a>              | <a href="#">09.09.26 Council Meeting Transcript - PDF</a>              |

|          |                 |                     |                                   |                                                                                                                                                                 |                                                                                                                                                            |                                                            |                                                           |
|----------|-----------------|---------------------|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----------------------------------------------------------|
| 9/9/2026 | Council Meeting | Brianna             | Transparency and Responsiveness   | Requested better communication when meetings are canceled and expressed frustration about receiving no response after reaching out.                             | INSILC has provided answers on this matter in the meeting and in writing.                                                                                  | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Jarom Hawker        | Transparency and Responsiveness   | Asked what discussion with the executive committee led to the cancellation of the meeting with Everybody Counts.                                                | INSILC has provided answers on this matter in the meeting and in writing.                                                                                  | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Anna Thompson Jones | INSILC Outreach                   | Praised the Columbus Town Hall for increasing visibility, communication, outreach opportunities, and local engagement in Bartholomew County.                    | Thank you for your comment and support.                                                                                                                    | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Jarom Hawker        | Transparency and Responsiveness   | Asked for a timeframe and clearer Council involvement in follow-up communications rather than relying solely on staff.                                          | INSILC has provided answers on this matter in the meeting and in writing.                                                                                  | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Teresa Torres       | Transparency and Responsiveness   | Stated that previous calls were not about the Town Hall and expressed concern that prior commitments to continue discussions had not been honored.              | INSILC has provided answers on this matter in the meeting and in writing.                                                                                  | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Teresa Torres       | Accessibility and Accommodation   | Reported difficulty hearing the Chair and noted that the interpreter was also having difficulty.                                                                | Thank you for reporting access issues so that we can address them in the meeting.                                                                          | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | John                | Home and Community-Based Services | Stated that the pre-test process for waiver-related requirements is flawed and may incorrectly indicate that some people do not need to meet work requirements. | INSILC is aware of problems with the pre-test process and is working to notify policy makers of the issue.                                                 | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | John                | Home and Community-Based Services | Raised concerns that the interRAI assessment is lengthy and may result in people who need waiver services losing access.                                        | INSILC shares these concerns and is working to amplify the experiences of Hoosiers with disabilities to policymakers to address this issue.                | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | John                | Home and Community-Based Services | Encouraged INSILC to take a position on issues related to waiver assessments and eligibility processes.                                                         | INSILC has co-authored statements through its membership in the Indiana Disability Alliance, but will work to issue other statements whenever appropriate. | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | John                | Emergency Preparedness            | Recommended that the SPIL include a coordinated statewide support plan and an emergency fund for consumers.                                                     | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                               | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |

|          |                 |              |                                 |                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                            |                                                           |
|----------|-----------------|--------------|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----------------------------------------------------------|
| 9/9/2026 | Council Meeting | Marcy        | Other                           | Asked for clarification regarding the number of current and pending Council members and available seats.                                                     | The Council is currently has 15 voting members, 16 members overall. We have approved and submitted seven names to the Governor for appointment. The State Plan Committee currently has 11 members and the Engagement Committee has five members; both committees are open to new members. For more information or to get invovled, email Info@IndianaSILC.org.                                                                                                                                    | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Jarom Hawker | Transparency and Responsiveness | Questioned attendance reporting and expressed concern that cumulative attendance figures could be misleading if repeat attendees are counted multiple times. | The Engagement Activities Report provides the aggregate number of attendees at INSILC meetings and events, which means if a person attends more than one event or meeting, they are counted more than once. This gives an idea of our total event impact. However, when it comes to public comments, the number of commenters is unique, meaning even if an individual gives more than one comment, they are only commented once. Number of comments and number of comments are separate figures. | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Tammy        | Emergency Preparedness          | Reported on an emergency preparedness symposium led by and for people with disabilities and emphasized the value of continued preparedness projects.         | Thank you for sharing these details and for your work to improve emergency preparedness.                                                                                                                                                                                                                                                                                                                                                                                                          | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |
| 9/9/2026 | Council Meeting | Jarom Hawker | INSILC Outreach                 | Noted that Everybody Counts staff attend many INSILC events and expressed concern about feeling excluded from collaboration and communication efforts.       | INSILC appreciates the participation and attendance of Everybody Counts staff. INSILC has provided and will continue to provide meaningful opportunities to collaborate on State Plan activities and development in addition to public comment opportunities.                                                                                                                                                                                                                                     | <a href="#">09.09.26 Council Meeting Transcript - WORD</a> | <a href="#">09.09.26 Council Meeting Transcript - PDF</a> |

|           |                              |                   |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                         |                                                                        |

| 9/9/2026  | Council Meeting              | John              | Employment                      | Reported that 22 people graduated from the Leadership and Advocacy Academy and highlighted its impact.                                                                                                                                                                                                                                                                                                                          | Thank you for sharing these details and for your work providing advocacy opportunities for people with disabilities.                                                                                                                                                                                                                                                                                                                                                                          | <a href="#">09.09.26 Council Meeting Transcript - WORD</a>              | <a href="#">09.09.26 Council Meeting Transcript - PDF</a>              |
| 9/9/2026  | Council Meeting              | John              | Accessibility and Accommodation | Shared plans to expand the number of interpreters in northeast Indiana through a five-year grant-supported program.                                                                                                                                                                                                                                                                                                             | Thank you for sharing these details and for your work to expand access and accommodations for Deaf, Deafblind, and Hard of Hearing individuals.                                                                                                                                                                                                                                                                                                                                               | <a href="#">09.09.26 Council Meeting Transcript - WORD</a>              | <a href="#">09.09.26 Council Meeting Transcript - PDF</a>              |
| 9/8/2026  | Engagement Committee Meeting | Brianna           | Transparency and Responsiveness | Are all of these attendees' unique individuals, are they the same people being counted repeatedly? I think for this, and for that report, the engagement report shows all the people as those are not unique individuals. So, the same individual could have attended multiple events, be counted each time, so that's a total number of attendees at each of the events somebody could have attended multiple events for that. | In the Engagement Activities Report, which can be found on the State Plan page at INSILC.org, the number of individuals who attended an INSILC event are not unique, meaning if one person attends multiple events, that person is counted multiple times. When it comes to public comments, the number of commenters are unique, meaning if one person makes multiple comments, that individual is only counted once. The number of comments made is separate from the number of commenters. | <a href="#">09.08.26 Engagement Committee Meeting Transcript - WORD</a> | <a href="#">09.08.26 Engagement Committee Meeting Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum          | Dee Ann           | Accessibility and Accommodation | Need stronger advocacy to ensure digital accessibility requirements are adopted by state and local governments and businesses.                                                                                                                                                                                                                                                                                                  | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                                                  | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Geoffrey Bicknell | Accessibility and Accommodation | Communication gaps for deaf people, interpreter training programs have closed, shortage of qualified interpreters, need clearer standards for qualified interpreters.                                                                                                                                                                                                                                                           | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                                                  | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Geoffrey Bicknell | Accessibility and Accommodation | Suggested a funding pool to help organizations afford interpreter services when cost is a barrier.                                                                                                                                                                                                                                                                                                                              | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                                                  | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Geoffrey Bicknell | Accessibility and Accommodation | AI and technology tools are advancing but remain inaccessible for deaf users, including sign language recognition and communication features.                                                                                                                                                                                                                                                                                   | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                                                  | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |

|           |                     |                   |                                            |                                                                                                                                                                 |                                                                                                              |                                                          |                                                               |
|-----------|---------------------|-------------------|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|----------------------------------------------------------|---------------------------------------------------------------|
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | Accessibility and Accommodation            | Promote ASL interpreting and teaching of the deaf as career paths through outreach to students and schools.                                                     | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | Accessibility and Accommodation            | FSSA Deaf and Hard of Hearing Services should be expanded, provide more statewide information, and coordinate better with agencies and the public.              | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | Accessibility and Accommodation            | Mishawaka sought feedback on its ADA Transition Plan; more cities should proactively engage deaf residents and improve accessibility.                           | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Karen Vaughn      | Accessibility and Accommodation            | People with disabilities should already have equal access to services and inclusion without ongoing fights for accommodations.                                  | INSILC agrees and thanks you for this comment.                                                               | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Dee Ann           | Asset Limits and Economic Self-Sufficiency | Referenced middle-class inclusion efforts and the need to remove barriers that prevent people from achieving economic mobility.                                 | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Dee Ann           | Asset Limits and Economic Self-Sufficiency | Benefits structures and support programs create barriers that prevent people from accepting opportunities and living like others.                               | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | Emergency Preparedness                     | AI-supported nonemergency and emergency communication systems are not fully accessible to deaf people.                                                          | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | Emergency Preparedness                     | Emergency press conferences and disaster communications should always include interpreters for deaf residents.                                                  | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | Employment                                 | Qualified deaf teachers affected by layoffs face hiring barriers due to communication concerns and accommodation costs.                                         | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | INSILC Outreach                            | Did not know about CILs or deaf representation on INSILC; wants stronger outreach and communication with the deaf community.                                    | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Geoffrey Bicknell | INSILC Outreach                            | INSILC and disability organizations should build relationships across all communities and counties so municipalities know where to seek guidance and resources. | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan. | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |
| 8/20/2026 | Virtual Input Forum | Karen Vaughn      | Other                                      | Expressed appreciation for the forum and the opportunity to reconnect and participate after an extended illness.                                                | INSILC is pleased to provide a forum for connection.                                                         | <a href="#">08.20.26 Virtual Input Transcript - WORD</a> | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a> |

| 8/20/2026 | Virtual Input Forum          | Karen Vaughn | Other                           | Referenced a lawsuit against the state to obtain needed services and wanted others to be aware of available legal avenues and supports.                                                                                                                                                                                                                                                       | Thank you for sharing about your experiences.                                                                                                                                                                | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Dee Ann      | Systems Change                  | Advocacy is needed for laws and policies that support accessibility and inclusion across disability groups.                                                                                                                                                                                                                                                                                   | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                 | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Dee Ann      | Systems Change                  | Government policies and systemic barriers continue to prevent equal participation and independence for people with disabilities.                                                                                                                                                                                                                                                              | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                 | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Dee Ann      | Systems Change                  | Collaboration among disability organizations is essential and should be strengthened statewide.                                                                                                                                                                                                                                                                                               | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                 | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Karen Vaughn | Systems Change                  | Indiana should adopt successful disability inclusion practices from other states and stop treating accessibility as separate from mainstream services.                                                                                                                                                                                                                                        | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                 | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/20/2026 | Virtual Input Forum          | Amanda       | Transparency and Responsiveness | Questioned whether advocacy efforts occurred only after service cuts and expressed concerns about trust in systems that reduce services.                                                                                                                                                                                                                                                      | Members of Indiana's Independent Living Network have engaged in advocacy activities before and after changes to Medicaid services. We are working to strengthen our advocacy efforts.                        | <a href="#">08.20.26 Virtual Input Transcript - WORD</a>                | <a href="#">08.20.26 Virtual Input Forum Transcript - PDF</a>          |
| 8/17/2026 | State Plan Committee Meeting | Julia        | Other                           | Over the past two years, INSILC has made the SPIL process more inclusive and accessible by creating new ways for people to participate and share feedback. Technology and open dialogue have helped engage more community members, and the committee's efforts are moving the SPIL in a positive direction. Appreciation was expressed for the leadership and hard work of everyone involved. | Thank you for your comment. INSILC is working hard it improve its practices.                                                                                                                                 | <a href="#">08.17.26 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">08.17.26 State Plan Committee Meeting Transcript - PDF</a> |
| 8/14/2026 | Virtual Input Forum          | Brianna      | Accessibility and Accommodation | Disaster response after the derecho was not accessible for many people with disabilities; people unable to leave homes lacked assistance and accessible resources.                                                                                                                                                                                                                            | INSILC is aware of the additional challenges Hoosiers with disabilities are facing after the storms. We are working to be in contact with state emergency an disaster decision-makers to improve this issue. | <a href="#">08.14.26 Virtual Input Forum Transcript - WORD</a>          | <a href="#">08.14.26 Virtual Input Forum Transcript - PDF</a>          |

|           |                     |                        |                                            |                                                                                                                                             |                                                                                                                                              |                                                                |                                                               |

|-----------|---------------------|-----------------|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|---------------------------------------------------------------|
| 8/14/2026 | Virtual Input Forum | Teresa          | Systems Change                             | Existing systems should be required to do their jobs rather than creating new programs and services.                                                                                                       | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.14.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.14.26 Virtual Input Forum Transcript - PDF</a> |
| 8/14/2026 | Virtual Input Forum | Teresa          | Systems Change                             | Indiana needs better information, education, and empowerment within disability leadership and organizations.                                                                                               | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.14.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.14.26 Virtual Input Forum Transcript - PDF</a> |
| 8/14/2026 | Virtual Input Forum | Brianna         | Transparency and Responsiveness            | Asked what incentives or accountability mechanisms exist to ensure officials follow disability best practices.                                                                                             | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.14.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.14.26 Virtual Input Forum Transcript - PDF</a> |
| 8/14/2026 | Virtual Input Forum | Teresa          | Transparency and Responsiveness            | Questioned what INSILC has actually done since COVID to improve emergency response and requested concrete actions rather than committees and planning.                                                     | INSILC is working to be in contact with state emergency an disaster decision-makers to improve this issue.                                                                                                                                                      | <a href="#">08.14.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.14.26 Virtual Input Forum Transcript - PDF</a> |
| 8/14/2026 | Virtual Input Forum | Teresa          | Transparency and Responsiveness            | Stated that pushback and accountability should come from INSILC when systems fail people with disabilities.                                                                                                | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.14.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.14.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026  | Virtual Input Forum | Anna            | Accessibility and Accommodation            | Limited accessible parking, difficult ramps, and challenging access to downtown locations make community participation difficult.                                                                          | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026  | Virtual Input Forum | Jeremy Warriner | Accessibility and Accommodation            | Accessibility is often treated as a compliance checkbox rather than intentional inclusion; businesses, construction sites, and public spaces should provide practical access for people with disabilities. | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026  | Virtual Input Forum | Jeremy Warriner | Accessibility and Accommodation            | People with disabilities should be able to enter the Statehouse through the main entrance rather than secondary accessible routes.                                                                         | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026  | Virtual Input Forum | Anna            | Asset Limits and Economic Self-Sufficiency | The Medicaid asset limit is outdated and creates financial hardship for people with disabilities on fixed incomes.                                                                                         | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026  | Virtual Input Forum | Amanda          | Employment                                 | Work requirements may create barriers for people with disabilities who are already struggling to maintain services.                                                                                        | INSILC is aware of the challenges Hoosiers with disabilities are facing as a result of changes to Medicaid coverage and waiver services. We are working to amplify these experiences to policymakers and educate them about the importance of community living. | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |

| 8/6/2026 | Virtual Input Forum | Amanda          | IL Philosophy        | People with disabilities should not be viewed as cost-saving measures and deserve equal rights and opportunities.         | INSILC is aware of the challenges Hoosiers with disabilities are facing as a result of changes to Medicaid coverage and waiver services. We are working to amplify these experiences to policymakers and educate them about the importance of community living. | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Amanda          | IL Philosophy        | Indiana should recognize and value the contributions of people with disabilities, including business owners and families. | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Anna            | INSILC Outreach      | Learned about disability services only after attending an INSILC event and was previously unaware of available resources. | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Dee Ann Hart    | INSILC Outreach      | Conferences and statewide gatherings help connect youth and consumer organizations and ensure diverse needs are heard.    | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Jeremy Warriner | INSILC Outreach      | INSILC and CILs should expand public education and outreach, especially in counties without CIL coverage.                 | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Jeremy Warriner | INSILC Outreach      | INSILC should develop stronger media and storytelling efforts to elevate experiences of people with disabilities.         | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Anna            | Public Input/Comment | Offered to share personal stories and advocacy experiences to help educate policymakers and the public.                   | Thank you; sharing your personal experience is an important advocacy tool.                                                                                                                                                                                      | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Amanda          | Systems Change       | Suggested legal action and stronger statewide responses to address service denials and waiver problems.                   | Legal action against Medicaid changes may have a role to play, although that route would be costly and slow. INSILC is working with its partners to be an active presence at the Statehouse to educate legislators on the importance of community living.       | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |

|          |                     |                 |                                 |                                                                                                                                                                  |                                                                                                                                                                                                                                                                 |                                                                |                                                               |
|----------|---------------------|-----------------|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|---------------------------------------------------------------|
| 8/6/2026 | Virtual Input Forum | Amanda          | Transparency and Responsiveness | Asked what recourse exists when people believe they were wrongfully denied waiver services or coverage.                                                          | Individuals who were denied a waiver are encouraged to file an appeal. Visit The Arc of Indiana's website for resource guides about how to get started.                                                                                                         | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Anna            | Transparency and Responsiveness | Could not see assessment details or understand why waiver eligibility was denied, making appeals difficult.                                                      | INSILC is aware of the challenges Hoosiers with disabilities are facing as a result of changes to Medicaid coverage and waiver services. We are working to amplify these experiences to policymakers and educate them about the importance of community living. | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/6/2026 | Virtual Input Forum | Jeremy Warriner | Transportation                  | Construction detours and public pathways often force people with disabilities into unsafe routes, including traffic areas.                                       | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.06.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.06.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace         | Accessibility and Accommodation | Encourages sensory-friendly community options, including transportation training and public activities that accommodate diverse needs.                           | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace         | Accessibility and Accommodation | Supports sensory-friendly shopping hours and community supports for people with sensory sensitivities.                                                           | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Monica          | Accessibility and Accommodation | Shared that a learning disability affects how she processes information and learns new systems, emphasizing the importance of practical, hands-on instruction.   | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace         | Employment                      | Supports and resources are needed to help disabled adults obtain employment and progress toward independent living.                                              | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Monica          | Employment                      | Difficulty finding employment despite qualifications; believes age, disability, and hiring practices create barriers to getting a job and proving her abilities. | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                    | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Monica          | Employment                      | Positive experience with Vocational Rehabilitation and support in exploring employment services and providers.                                                   | INSILC is glad to hear about this positive experience.                                                                                                                                                                                                          | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |

| 8/1/2026 | Virtual Input Forum | Candace | Healthcare      | Food insecurity should be addressed as an important issue affecting people with disabilities.                                                                          | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace | Housing         | Need for affordable, income-based housing options that allow disabled adults to live independently.                                                                    | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace | IL Philosophy   | Greater support is needed to help disabled adults build independence and make their own choices while caregivers learn to step back appropriately.                     | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace | INSILC Outreach | Notes that she learned about the forum through Facebook and was previously unaware of available Independent Living resources.                                          | INSILC and the Centers for Independent Living will work together in the coming years to improve awareness of its services and activities. | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace | Systems Change  | More community-based activities, gathering spaces, and resources are needed for disabled adults, especially in counties outside direct service areas.                  | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace | Systems Change  | Suggests community service and volunteer programs that connect students and community members with disabled adults who need assistance and companionship.              | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace | Transportation  | Limited public transportation in rural areas restricts independence and employment opportunities for disabled adults who cannot drive.                                 | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Candace | Transportation  | Recommends transit orientation days, ride-alongs, and partnerships with transportation providers to help people learn bus systems and access jobs and services.        | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |
| 8/1/2026 | Virtual Input Forum | Monica  | Transportation  | Public transportation can be difficult to learn and navigate; hands-on training and ride-along opportunities would help people build confidence using transit systems. | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                              | <a href="#">08.01.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">08.01.26 Virtual Input Forum Transcript - PDF</a> |

|           |                     |        |                                   |                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                |                                                               |

| 7/23/2026 | Virtual Input Forum | Amanda | IL Philosophy   | Questions whether people with disabilities are being treated with dignity, rights, and community inclusion.  | INSILC agrees that people with disabilities are often not treated with the dignity and inclusion that is their right. We are working to ensure our activities and State Plan provide avenues to make meaningful progress in the protection and advancement of the civil rights of the disability community.                                                                                                       | <a href="#">07.23.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.23.26 Virtual Input Forum Transcript - PDF</a> |
| 7/23/2026 | Virtual Input Forum | Amanda | INSILC Outreach | Argues that more disability awareness, outreach, visibility, and public representation are needed statewide. | INSILC agrees that awareness, outreach, visibility and representation need to be improved. We are working to expand the reach of our organization, as well as collaborate with other organizations to pursue larger efforts and hopefully in the future a statewide campaign that will accomplish that improvement.                                                                                               | <a href="#">07.23.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.23.26 Virtual Input Forum Transcript - PDF</a> |

|           |                     |        |                      |                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                |                                                               |

| 7/23/2026 | Virtual Input Forum | Amanda | Public Input/Comment | Notes that she is often the only participant speaking at forums and worries others are afraid to speak publicly.       | INSILC thanks Amanda for her participation in forums and is working to publicize the forums to hear from more people. We recognize that individuals may choose not to share their voice publicly for fear of losing services or other consequences. INSILC is happy to receive input or feedback via email at Info@IndianaSILC.org or by phone at 1-844-446-7452.                                                                | <a href="#">07.23.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.23.26 Virtual Input Forum Transcript - PDF</a> |
| 7/23/2026 | Virtual Input Forum | Amanda | Systems Change       | Calls for major reform of disability systems, arguing that cost-saving measures are prioritized over people.           | INSILC wholeheartedly agrees that cost-saving measures should not compromise the civil rights and access to services that people with disabilities need. We are working collaboratively with the Indiana Disability Alliance to be a unified voice on the protection of Home and Community-Based Services to both FSSA leadership and the Indiana General Assembly; we are currently preparing for the 2027 legislative session. | <a href="#">07.23.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.23.26 Virtual Input Forum Transcript - PDF</a> |
| 7/23/2026 | Virtual Input Forum | Amanda | Systems Change       | Highlights barriers caused by fragmented systems, lack of information, and difficulty accessing programs and supports. | INSILC agrees that navigating multiple systems to receive care and support puts undue burden on people with disabilities. INSILC's State Plan Committee will explore ways to mitigate these barriers.                                                                                                                                                                                                                            | <a href="#">07.23.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.23.26 Virtual Input Forum Transcript - PDF</a> |
| 7/23/2026 | Virtual Input Forum | Amanda | Systems Change       | Suggests every county should have an independent disability representative or advocate.                                | The State Plan Committee will consider and include this idea in the development of the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                     | <a href="#">07.23.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.23.26 Virtual Input Forum Transcript - PDF</a> |

| 7/23/2026 | Virtual Input Forum | Amanda | Transparency and Responsiveness   | Challenges INSILC and state leaders on whether public meetings are producing meaningful action while people are actively losing services.    | While seemingly pointless in the face of the dire situations people with disabilities are experiencing, meetings that are intended to engage with the public are necessary to ensure that systems-level work is informed by people's lived experiences.                 | <a href="#">07.23.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.23.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Julia  | Accessibility and Accommodation   | Suggests better information and guidance to help consumers navigate provider options and make informed choices.                              | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                       | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Amanda | Healthcare                        | Reports losing healthcare coverage, physical therapy access, and other supports.                                                             | INSILC is aware that people with disabilities are losing various benefits and supports. While we cannot directly intervene in individual situations, personal stories are a critical to informing the Council's advocacy activities and State Plan development process. | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Amanda | Home and Community-Based Services | Reports loss of caregiver supports and fears over cuts to HCBS programs.                                                                     | INSILC is aware that people with disabilities are losing various benefits and supports. While we cannot directly intervene in individual situations, personal stories are a critical to informing the Council's advocacy activities and State Plan development process. | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Julia  | Home and Community-Based Services | Reports concerns that home health aides frequently call off and agencies fail to provide substitutes, leaving people without needed support. | INSILC is aware of the shortage and limitations of Direct Support Professionals in Indiana. We will include this comment in the process of developing the 2027-2030 State Plan.                                                                                         | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Julia  | Home and Community-Based Services | Recommends training consumers to manage, direct, and advocate for their own home health aide services.                                       | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                       | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |

|-----------|---------------------|---------|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|---------------------------------------------------------------|
| 7/15/2026 | Virtual Input Forum | Julia   | Home and Community-Based Services | Recommends creating an ombudsman or accountability mechanism for home health services and provider performance.               | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                            | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Amanda  | Housing                           | Expresses fear of losing her home and asks what organizations are doing to help people keep their homes.                      | INSILC is aware that people with disabilities are losing various benefits and supports. While INSILC is not able to provide direct services to those in need, we are working with other organizations to be a prominent and effective voice on independent living at the IN State House during the 2027 legislative session. | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Amanda  | IL Philosophy                     | Concern that DOJ memo undermines community integration and raises fear of returning people with disabilities to institutions. | INSILC shares the concerns of individuals and the larger disability community about reinstitutionalization. We are closely monitoring statements and decisions from the federal and state governments and will participate in and spread the word about advocacy efforts in response to new developments.                    | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Brianna | IL Philosophy                     | States that people with disabilities need to unite and stand up for their rights collectively.                                | INSILC wholeheartedly agrees and is happy to facilitate directly or indirectly the organization of people with disabilities.                                                                                                                                                                                                 | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Julia   | Other                             | Shares information about Indiana ABLE accounts as a tool for saving money without affecting eligibility limits.               | Thank you for spreading the word about this important resource.                                                                                                                                                                                                                                                              | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Amanda  | Public Input/Comment              | States that people with disabilities are exhausted from constantly having to advocate for themselves and feel unheard.        | INSILC appreciates and understands that people with disabilities are largely unheard and the fatigue that comes with self-advocacy. We do our best to hear from as many people as we can, and whenever possible, we refer individuals to their closest Center for Independent Living for support from peers and staff.       | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |

| 7/15/2026 | Virtual Input Forum | Amanda | Systems Change                  | Calls for stronger public action, media attention, legal action, and broader disability advocacy rather than continued planning discussions.       | INSILC is collaborating with other organizations to present a stronger, unified voice to protect Home and Community-Based Services and prevent reinstitutionalization while also fulfilling its duty to collaborate with Indiana's Independent Living Network members to develop the federally mandated State Plan for Independent Living. | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Leslie | Systems Change                  | Argues that disability organizations and systems are not adequately representing people and that disabled individuals must organize independently. | INSILC agrees that more representation of people with disabilities is always better and supports their right to organize with or without the disability organizations that exist.                                                                                                                                                          | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Leslie | Systems Change                  | Notes that many people with disabilities are struggling, giving up, or facing life-threatening situations.                                         | INSILC is aware of the unmet needs and life-threatening situations that people with disabilities are experiencing. We are working within our means to address these issues at a statewide level.                                                                                                                                           | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Leslie | Systems Change                  | Advocates for people with disabilities leading change directly rather than relying on systems that fail to represent them.                         | INSILC will always support peoples' right to lead and organize change however they see fit.                                                                                                                                                                                                                                                | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/15/2026 | Virtual Input Forum | Amanda | Transparency and Responsiveness | Questions the purpose and effectiveness of planning meetings when people are actively losing services, benefits, caregivers, and housing.          | While INSILC acknowledges the urgent and dire situations people with disabilities are experiencing, working with people with disabilities and other organizations to address these issues at a statewide, systemic level is our core purpose and something we will not abandon, especially in these times.                                 | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |

|           |                     |                   |                                   |                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                |                                                               |

| 7/15/2026 | Virtual Input Forum | Leslie            | Transparency and Responsiveness   | Questions how organizations can create effective plans when funding and decision-making systems are contributing to harms experienced by people with disabilities. | It's true that INSILC receives its funding from state and federal funds, and it's true that lawmakers have made decisions that are harming people with disabilities. However, because the Council and its staff, as well as the boards, leadership, and staff of our Centers for Independent Living are majority people with disabilities, we are all committed to serving our peers with disabilities by listening to them and following their input on our services and activities. | <a href="#">07.15.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.15.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Amanda            | Healthcare                        | Worries about loss of insurance coverage and related disability supports.                                                                                          | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Amanda            | Home and Community-Based Services | People with disabilities are losing waiver and caregiver services, and needs are being taken away rather than met.                                                 | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Amanda            | Home and Community-Based Services | Lost many disability services and believes state policy changes have removed eligibility for needed supports.                                                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Brianna           | Home and Community-Based Services | Many people are currently losing services or fear losing services.                                                                                                 | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Chat Participants | Home and Community-Based Services | Multiple participants reported losing waivers, services, and supports and expressed a desire for action.                                                           | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Amanda            | Housing                           | Fear of losing housing and being unable to remain in the community without supports.                                                                               | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |

| 7/10/2026 | Virtual Input Forum | Amanda    | IL Philosophy        | People with disabilities should be able to remain in their homes and communities rather than institutions.                              | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                            | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Christian | INSILC Outreach      | INSILC should engage more directly with participants and explore comments in greater depth instead of moving quickly between questions. | INSILC staff works to meaningfully engage with individuals both in public and privately after events conclude.                                               | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Julia     | INSILC Outreach      | Promoted peer support and information sharing through a disability community group.                                                     | Thank you for sharing this outlet.                                                                                                                           | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Angel     | Public Input/Comment | Amanda's concerns are valid and should be fully acknowledged and discussed rather than redirected.                                      | INSILC acknowledges the validity of all comments made and works to respond meaningfully.                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Christian | Public Input/Comment | Forum structure and open-ended questions do not encourage enough discussion or meaningful public feedback.                              | The Forum structure and questions are created intentionally to allow individuals to lead both topics and discussions.                                        | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Christian | Public Input/Comment | Meeting questions should include clearer prompts and discussion topics so participants can contribute more effectively.                 | INSILC intentionally does not set specific topics for these forums to ensure that any topic or concern can arise rather than the few INSILC might designate. | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Christian | Public Input/Comment | Future forums should focus on major disability issues currently affecting Hoosiers, including service losses.                           | INSILC intentionally does not set specific topics for these forums to ensure that any topic or concern can arise rather than the few INSILC might designate. | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | James     | Public Input/Comment | INSILC should be a venue where people can safely express concerns about disability issues affecting their lives.                        | INSILC agrees and works to gain the trust of individuals who might want to share their concerns with INSILC.                                                 | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Amanda    | Systems Change       | More disability groups and councils exist, but people with disabilities still struggle to get help and services continue to be cut.     | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                            | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Amanda    | Systems Change       | Believes policymakers and agencies are not listening to or adequately responding to concerns of people with disabilities.               | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                            | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |

| 7/10/2026 | Virtual Input Forum | Amanda  | Systems Change                  | Calls for stronger statewide disability leadership and advocacy from people with lived experience.                       | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                               | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Brianna | Systems Change                  | Encouraged communication with state agencies such as FSSA and VR regarding disability service concerns.                  | INSILC is working to be in closer communication with VR and FSSA to become a stronger resource for individuals.                                                                                                                                                                                                                 | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | James   | Systems Change                  | Voices of people with disabilities are often ignored or silenced, and they should have a place to be heard.              | INSILC agrees and is working to gain the trust of individuals who might want to share their voice with INSILC.                                                                                                                                                                                                                  | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Julia   | Systems Change                  | Questioned whether contacting legislators is an effective response when policymakers are involved in service reductions. | It might seem unproductive, but INSILC believes it is always worth communicating with elected leaders and policymakers about one's story and needs.                                                                                                                                                                             | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Amanda  | Transparency and Responsiveness | Questions why disability councils seek input while services continue to be reduced or eliminated.                        | Councils including INSILC seek input so that their activities are informed by people with lived experience. Councils have no control over the decisions of policymakers and cannot always influence service cuts/reductions. It is still the responsibility of those Councils to hear from the public to inform its activities. | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Angel   | Transparency and Responsiveness | INSILC should show more compassion and provide clearer explanations of its advocacy and lobbying efforts.                | INSILC will work to do these in the future.                                                                                                                                                                                                                                                                                     | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |
| 7/10/2026 | Virtual Input Forum | Brianna | Transparency and Responsiveness | Asked what actions INSILC can take regarding waiver-service reductions.                                                  | INSILC is a member of the Indiana Disability Alliance which is an advocacy group focused on Waiver cuts and reinstitutionalization. We are in the process of implementing actions that will draw attention to this issue as well as to prepare for the 2027 legislative session.                                                | <a href="#">07.10.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.10.26 Virtual Input Forum Transcript - PDF</a> |

|           |                     |             |                                   |                                                                                                                                                        |                                                                                                                                   |                                                                |                                                               |

| 7/2/2026 | Virtual Input Forum | Sheri Reece  | Systems Change                  | Services often end or become difficult to access when transitioning from youth programs to adult systems.                        | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Jarom Hawker | Transparency and Responsiveness | INSILC should provide honest assessments of its outreach and community engagement efforts.                                       | All of the input and feedback INSILC receives is published on its website at <a href="https://insilc.org/feedback">INSILC.org/feedback</a> . Input will be reviewed by the State Plan Committee and implemented into the next State Plan. | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Sheri Reece  | Transparency and Responsiveness | Unable to identify who makes Medicaid waiver service decisions; experiences repeated referrals between agencies without answers. | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Sheri Reece  | Transparency and Responsiveness | People seeking services are frequently referred from one agency to another without clear guidance or resolution.                 | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Dee Ann      | Transportation                  | Transportation barriers are systemic and affect many people with disabilities, not isolated individuals.                         | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Dee Ann      | Transportation                  | Transportation remains a major issue, especially in rural communities with infrequent service and limited options.               | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Dee Ann      | Transportation                  | Paratransit is limited, county boundaries create service gaps, and regional transportation systems are poorly connected.         | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Dee Ann      | Transportation                  | Travel to Indianapolis for healthcare is expensive and may require overnight stays because of limited transit schedules.         | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |
| 7/2/2026 | Virtual Input Forum | Sheri Reece  | Transportation                  | Adult day services transportation to appointments is helpful.                                                                    | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                         | <a href="#">07.02.26 Virtual Input Forum Transcript - WORD</a> | <a href="#">07.02.26 Virtual Input Forum Transcript - PDF</a> |

|           |                 |         |                                        |                                                                                                                                                  |                                                                                                                                                                                                  |                                                            |                                                           |
|-----------|-----------------|---------|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----------------------------------------------------------|
| 6/10/2026 | Council Meeting | Angel   | Accessibility and Accommodation        | Identified physical accessibility hazards such as cords and lack of Braille materials; accommodations are inconsistent even in accessible areas. | INSILC acknowledges these accessibility concerns and will ensure that at future meetings there are no tripping hazards and that accessible meeting materials are made available.                 | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Dee Ann | Accessibility and Accommodation        | Supported the deaf-blind alliance proposal based on need for services in the community.                                                          | INSILC is happy to support the Hoosier DeafBlind Alliance.                                                                                                                                       | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Dee Ann | Accessibility and Accommodation        | Specialized services and trained professionals are needed rather than generalized caseloads for deaf and blind individuals.                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Jarom   | Accessibility and Accommodation        | Raised concerns about meeting accessibility, furniture safety                                                                                    | INSILC will make the necessary improvements to meeting accessibility and furniture safety at all future public events.                                                                           | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Jeremy  | Accessibility and Accommodation        | Shared that seating at the next public meeting(s) should be stationary rather than on wheels for safety                                          | INSILC will make sure not to use rolling chairs for seating at any future event.                                                                                                                 | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Jarom   | Other                                  | Questioned use of funds for external consultants                                                                                                 | INSILC hears this concern and will continue to follow the voices of our peers with disabilities in all of its work.                                                                              | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Jeremy  | Other                                  | Questioned use of funds for external consultants, expressed that what consultants are paid to do should be done within the network of Centers    | INSILC hears this concern and will continue to follow the voices of our peers with disabilities in all of its work.                                                                              | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | John    | Other                                  | Thanked the Council for its support of the Inclusion Institute                                                                                   | INSILC is happy to support the work of all ten Centers in every way we can.                                                                                                                      | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Brianna | SPIL/CAP Writing Process and Approvals | SPIL development process is being done out of order reaching out to Center staff before consumers                                                | INSILC has been in conversation with ACL about the development of the 2027-2030 State Plan to ensure the process is being conducted correctly.                                                   | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Geoffry | Systems Change                         | Expressed concern that the deaf community is not included in statewide alliances and policy discussions.                                         | INSILC has reached out to Geoffrey in regards to its coalition work. We hear Geoffrey's concern and hope to be in conversation and collaboration with him and the Deaf community moving forward. | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |

|           |                 |           |                                 |                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                          |                                                            |                                                           |
|-----------|-----------------|-----------|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----------------------------------------------------------|
| 6/10/2026 | Council Meeting | Suzie     | Systems Change                  | Advocated for funding and structured support for the deaf-blind community, including SSP services and long-term sustainability.                                                                                                                                                                           | INSILC is pleased to support work that advances the rights and inclusion of the DeafBlind community as we are invited.                                                                   | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Brianna   | Transparency and Responsiveness | Public comment dashboard may include non-relevant comments and inflate counts.                                                                                                                                                                                                                            | INSILC has removed previously included comments made by town hall panelists versus attendees and does not believe there are any non-relevant comments included in the comment dashboard. | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Christian | Transparency and Responsiveness | Expressed that INSILC doesn't put people first, questioned whether the council is truly serving the community and prioritizing people with disabilities.                                                                                                                                                  | INSILC Council Members and staff absolutley prioritizes people with disabilities and is happy to hear suggestions about how we can better serve the community.                           | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Drea      | Transparency and Responsiveness | Public comments are paraphrased in the dashboard, which removes context and passion; voices should be captured fully. People with disabilities should be fully heard without paraphrasing                                                                                                                 | INSILC provides comment summaries and full transcripts to strike a balance between providing a document that can be both quickly digested and complete with full detail.                 | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Jarom     | Transparency and Responsiveness | Raised concerns about lack of response to submitted report and questioned whether dispute resolution policies are being followed.                                                                                                                                                                         | INSILC is in compliance with its policies, including the Dispute Resolution policy. Specific concerns can be directed to the Executive Director Mike Foddrill.                           | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Jeremy    | Transparency and Responsiveness | Shared Brianna's concerns about how New Albany town hall attendee comments and conversations with elected official panel speakers are being applied and used by INSILC                                                                                                                                    | INSILC has removed previously included comments made by town hall panelists versus attendees.                                                                                            | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |
| 6/10/2026 | Council Meeting | Jeremy    | Transparency and Responsiveness | Concered with the use of AI in the public comment dashboard, that people's meaning is altered or taken out of context, and that it continues a disconnect between the Council and the people. Impressed that the Council has a responsibility listen and reflect people's comments without changing them. | INSILC hears this concern and will make every effort to carefully monitor the use of AI and to accurately reflect people's comments.                                                     | <a href="#">06.10.26 Council Meeting Transcript - WORD</a> | <a href="#">06.10.26 Council Meeting Transcript - PDF</a> |

| 3/31/2026 | New Albany Town Hall   | Melissa Sullivan (Gateway Residential) | Home and Community-Based Services | Described DSP shortages, waiver block issues, flaws in provider pick lists, and difficulty families face accessing actual service capacity.                                                                              | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                      | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - WORD</a> | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - PDF</a> |
| 3/31/2026 | New Albany Town Hall   | Melissa Sullivan (Gateway Residential) | Home and Community-Based Services | Called for provider accountability, improved waiver algorithms, realistic provider lists, and transparency in service availability.                                                                                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                      | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - WORD</a> | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - PDF</a> |
| 3/31/2026 | New Albany Town Hall   | Public Attendee (Caregiver)            | Home and Community-Based Services | Described fear and hardship caused by proposed elimination or reduction of paid family caregiving, particularly in rural areas with worker shortages.                                                                    | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                      | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - WORD</a> | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - PDF</a> |
| 3/31/2026 | New Albany Town Hall   | Public Attendee                        | Home and Community-Based Services | Asked how differential pay for family caregivers is not discriminatory and questioned what options families have when services are reduced.                                                                              | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                      | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - WORD</a> | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - PDF</a> |
| 3/31/2026 | New Albany Town Hall   | Public Attendee                        | Home and Community-Based Services | Highlighted large waiver waiting lists and questioned how Indiana can meet home- and community-based services goals.                                                                                                     | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                      | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - WORD</a> | <a href="#">03.31.26 New Albany Disability Town Hall Transcript - PDF</a> |

| 3/11/2026 | Council Meeting | Ramona | Accessibility and Accommodation   | Stated meetings have not been accessible; appreciated in-person option; expressed fear about current climate for people with disabilities and concern about tokenization. | INSILC is always working to improve accessibility of its events and intends to make individuals feel heard and accurately represented and not tokenized.                                                                                                                                                                                                                                                                                                                                                                                      | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Jeremy | Home and Community-Based Services | Asked what INSILC and CILs are doing to pressure Indiana's Attorney General to withdraw from Texas v. Kennedy; emphasized threats to community-based services.            | INSILC is working internally to create the capacity necessary to be more effective at advocacy and systems change and to be more responsive when issues like this arise.                                                                                                                                                                                                                                                                                                                                                                      | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | John   | Home and Community-Based Services | Raised concerns about an FSSA/DRS RFI proposing CRMNF beds; urged focus on HCBS instead of new facility frameworks.                                                       | INSILC hears the concerns about reinstitutionalization. In 2026, INSILC joined the newly formed Indiana Disability Alliance which is organized around protecting and advancing Home and Community Based Services across Indiana.                                                                                                                                                                                                                                                                                                              | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Jarom  | IL Philosophy                     | Shared a death under guardianship; emphasized inaction results in loss of life and institutionalization; urged INSILC to take a strong stance.                            | INSILC takes seriously the grave nature of institutionalization and guardianship. INSILC has adopted the position of the National Council on Independent Living on guardianship and holds firmly that guardianship has no place in the Independent Living movement. Our Alternatives to Guardianship workgroup is exploring ways to promote and advance Supported Decision Making in Indiana and will make recommendations to the State Plan Committee, which then may decide to include those recommendations into the 2027-2030 State Plan. | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |

| 3/11/2026 | Council Meeting | Jason Glen                                  | IL Philosophy                   | Criticized lack of action around guardianship; shared story about friend at risk; questioned what INSILC will do with public feedback.                                                                                                                                                                                                                                                                      | INSILC's Alternatives to Guardianship Workgroup is exploring ways to promote Supported Decision Making in Indiana and will make recommendations to the State Plan Committee, who then may decide to incorporate those recommendations into the 2027-2030 State Plan. | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Leslie                                      | INSILC Outreach                 | Questioned how INSILC publicizes meetings beyond the website.                                                                                                                                                                                                                                                                                                                                               | INSILC shares details about its public meetings on its website, via newsletters and social media. We will continue to include public meeting information as we conduct outreach to individuals and organizations across the state.                                   | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Jason                                       | INSILC Outreach                 | Suggested using budget to attend more community events with tents and tables; emphasized visibility.                                                                                                                                                                                                                                                                                                        | INSILC attends community events as often as staff capacity allows.                                                                                                                                                                                                   | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Jason Glen                                  | INSILC Outreach                 | Asked how to be nominated to the council.                                                                                                                                                                                                                                                                                                                                                                   | Applications to be a Council member can be found on the About page of our website.                                                                                                                                                                                   | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Nancy                                       | INSILC Outreach                 | Asked about workgroup meeting schedules and partnering with disability organizations so more people know about CIL services and INSILC's work.                                                                                                                                                                                                                                                              | INSILC has introduced itself to and worked with dozens of disability organizations through its outreach and town hall series, but is always striving to reach more.                                                                                                  | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Jason                                       | Public Input/Comment            | Encouraged unity, cooperation, and constructive engagement despite tensions.                                                                                                                                                                                                                                                                                                                                | INSILC appreciates and agrees with the sentiments Jason shared.                                                                                                                                                                                                      | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting | Everybody Counts and Everybody Counts North | Transparency and Responsiveness | In response to INSILC's Year 1 progress report of the 2025-2027 SPIL, which can be found on the State Plan page of our website, the two Centers for Independent Living Everybody Counts and Everybody Counts North shared a dissenting report outlining questions, concerns, and criticisms of the report INSILC published. Both Word and PDF files of this dissenting report are linked in this dashboard. | INSILC received the dissenting report on March 11, 2026 and promptly shared it with all Council members. INSILC will consider all points raised in the dissenting report, make improvements wherever possible, and communicate direct with the dissenting Centers.   | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |

|           |                        |                                    |                                 |                                                                                                                                                           |                                                                                                                                                                                                                                                            |                                                            |                                                           |
|-----------|------------------------|------------------------------------|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----------------------------------------------------------|
| 3/11/2026 | Council Meeting        | Brianna                            | Transparency and Responsiveness | Expressed concern at the lack of verbal response to comments about Section 504 and community deaths.                                                      | INSILC staff and Council members care deeply about the well-being of our peers even if they may not verbally articulate it to the public.                                                                                                                  | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting        | Chris                              | Transparency and Responsiveness | Argued that posting responses online is not meaningful engagement; called for real dialogue.                                                              | After this comment was received, INSILC implemented the 'Community Conversation Tables' at its Town Hall events to create more space for open dialogue. We are open to finding other ways to welcome dialogue in other formats.                            | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting        | Jackie                             | Transparency and Responsiveness | Expressed concern that the meeting lacked genuine community, conversation, and two-way engagement.                                                        | INSILC balances the need to conduct Council business during public meetings and the importance of hearing from the public. We have created other channels for two-way engagement via our Town Hall Community Conversation Tables and Virtual Input Forums. | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Council Meeting        | Public commenter (first statement) | Transparency and Responsiveness | Urged INSILC to represent the voices of people with disabilities rather than systems; emphasized need for advocacy driven by real community needs.        | INSILC strives to accurately represent the voices of its peers with disabilities and is working internally to create the capacity necessary to be effective at systems change.                                                                             | <a href="#">03.11.26 Council Meeting Transcript - WORD</a> | <a href="#">03.11.26 Council Meeting Transcript - PDF</a> |
| 3/11/2026 | Public Feedback Survey | Public Feedback Survey Respondent  | Transportation                  | DeKalb County desperately needs expanded public transportation, access to disability services in rural areas and affordable housing.                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                          | <a href="#">INSILC Public Feedback Survey Dashboard</a>    |                                                           |
| 3/9/2026  | Email Comment          | Marcy                              | Accessibility and Accommodation | INSCIL should create a guide for PwD and their family members to understand the difference between disability civil rights vs. benefits such as Medicaid. | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                          | No Transcript Taken                                        | No Transcript Taken                                       |

|           |                        |                                   |                 |                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                |                                                                |                                                               |

| 2/17/2026 | Public Feedback Survey | Public Feedback Survey Respondent | IL Philosophy   | Our CIL has a conflict of interest in promoting guardianship services because their director also runs a guardianship agency. For this reason, I no longer recommend that people go to the CIL for help, especially if they could be at risk of being pushed into guardianship. | INSILC does not endorse the use of guardianships. Additionally, INSILC does not hold any supervisory power over Centers for Independent Living. INSILC strongly discourages any Center's participation in guardianship(s).                                                                     | <a href="#">INSILC Public Feedback Survey Dashboard</a>        |                                                               |
| 1/21/2026 | ACL Special Session    | Erica McFadden (ACL)              | IL Philosophy   | Affirms on the record: guardianship is not part of IL philosophy; both Mike and Kacie also state "no" when asked directly.                                                                                                                                                      | INSILC understands and acknowledges that guardianship is not part of the Independent Living philosophy.                                                                                                                                                                                        | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session    | Karen Willison                    | IL Philosophy   | Objects to guardianship activities within the IL network; urges the SPIL to ban conflicts of interest and align with national IL positions; suggests excluding guardianship leaders from SILC roles.                                                                            | INSILC has adopted the National Council on Independent Living's position statement on guardianship and does not endorse the support or use of guardianships within Indiana's Independent Living Network.                                                                                       | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session    | Christian                         | INSILC Outreach | Notes repeated offers to help host in Northwest Indiana but says no follow-up occurred; asks for follow-through on regional outreach.                                                                                                                                           | INSILC has offered to host an event in the Northwest in 2026 in collaboration with the area Centers but the offer was not accepted. INSILC is committed to hosting a Town Hall event in Northwest Indiana in early 2027.                                                                       | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session    | Jeremy                            | INSILC Outreach | Commends holding town halls but says publicity was weak and attendance repetitive; urges statewide public education on IL philosophy (many confuse IL with assisted living).                                                                                                    | INSILC aims for strong attendance at its Town Hall events in spite of its lack of name recognition in the state and limited staff capacity. INSILC intends to collaborate with the Centers on a statewide marketing campaign around Independent Living during the 2027-2030 State Plan period. | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session    | Larry                             | INSILC Outreach | Offers to help organize veteran outreach, noting many veterans don't know about IL; asks for direction and contact to start connecting veterans to INSILC/CIL resources.                                                                                                        | Larry was contacted after the meeting to follow-up on resources discussed during the meeting.                                                                                                                                                                                                  | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |

|           |                     |                      |                                        |                                                                                                                                                                                                                          |                                                                                                                                                               |                                                                |                                                               |

| 1/21/2026 | ACL Special Session | Breanna              | Public Input/Comment                   | Says the meeting did not match expectations for open comment, and time for public input was unclear; expresses frustration that feedback isn't acted on despite repeated suggestions (including extending interpreters). | INSILC is working to improve its process to act on input received and to publicly share what actions are taken.                                               | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session | Gloria Garton        | Public Input/Comment                   | Confirms the CAP is posted and updated on INSILC's site; invites feedback on outreach to marginalized communities and veterans                                                                                           | Individuals are invited to give feedback via phone, email, survey, or public events and meetings.                                                             | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session | Jeremy               | SPIL/CAP Writing Process and Approvals | Raises concern about network representation on the Council; questions whether all CILs are equitably included in SPIL work and appointments.                                                                             | INSILC continues to provide meaningful channels for all Centers to be represented in the Council and State Plan work.                                         | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session | Kimberly (IL-NET)    | Systems Change                         | Urges network-level conversation among CILs and SILC to rebuild trust and functioning collaboration; says hard conversations are needed to re-establish a real network.                                                  | INSILC welcomes productive conversation between the Council and the Centers.                                                                                  | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session | Erica McFadden (ACL) | Transparency and Responsiveness        | Clarifies SILC composition rules (cannot have more than half employed by CILs); appointments are made by the Governor; urges discussing CIL representation within the CIL director group.                                | INSILC continues to seek opportunities to ensure all Centers are represented within the Network.                                                              | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session | Erica McFadden (ACL) | Transparency and Responsiveness        | Says ACL will review guardianship concerns; notes state oversight for Part B CILs and federal oversight for Part C; confirms ACL has discussed IL philosophy on guardianship with INSILC.                                | INSILC has heard concerns around guardianship and adopted the position statement of the National Council on Independent Living at the March 11, 2026 meeting. | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session | Jim Ward             | Transparency and Responsiveness        | Critiques SILCs that become extensions of state government rather than consumer-controlled bodies; calls on ACL to ensure consumer control and address exclusion of underserved communities.                             | INSILC is committed to following consumer voices and to improve its outreach and relationships with underserved communities.                                  | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session | Leslie               | Transparency and Responsiveness        | Critiques a SPIL evaluation report posting timeline and claims lack of dialogue and consumer voice; urges focus on housing and urgent needs.                                                                             | INSILC is working internally to create the capacity necessary to be an effective actor in systems change issues like housing and other urgent needs.          | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |

|           |                        |                                   |                                 |                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                              |                                                                |                                                               |

| 1/21/2026 | ACL Special Session    | Renee                             | Transparency and Responsiveness | Questions whether certain documents were actually produced when claimed; calls for oversight to prevent retroactive postings and for systemic action from INSILC.          | INSILC has not retroactively produced or published any documents.                                                                                                                                                                                                                                                                                            | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | ACL Special Session    | Theresa                           | Transparency and Responsiveness | Argues the session prioritized scripted updates over accountability; demands the Council own past gaps, learn IL, and act on concrete responsibilities instead of "PR."    | INSILC is committed to the Independent Living Philosophy and to be effective in fulfilling its responsibilities.                                                                                                                                                                                                                                             | <a href="#">01.21.26 ACL Special Session Transcript - WORD</a> | <a href="#">01.21.26 ACL Special Session Transcript - PDF</a> |
| 1/21/2026 | Email Comment          | Dee Ann                           | Systems Change                  | Centers have stretched resources; many counties need services; there are many counties that don't have resources for blind individuals                                     | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                            | N/A                                                            | N/A                                                           |
| 1/21/2026 | Public Feedback Survey | Public Feedback Survey Respondent | IL Philosophy                   | Our CIL continues to display a conflict of interest because their director also operates a guardianship agency. This should not be allowed!                                | INSILC does not endorse the use of guardianships. Additionally, INSILC does not hold any supervisory power over Centers for Independent Living. INSILC strongly discourages any Center's participation in guardianship(s).                                                                                                                                   | <a href="#">INSILC Public Feedback Survey Dashboard</a>        |                                                               |
| 1/21/2026 | Public Feedback Survey | Public Feedback Survey Respondent | INSILC Outreach                 | The CIL that serves Monroe County seems to be completely absent from the community, any discussions happening in the state, and it is very disappointing and unacceptable. | INSILC has shared this comment with the Center for Independent Living serving Monroe County. SICIL is always striving to be known and accessible to everyone across eight counties. Additionally, SICIL is a collaborative member of the Independent Living Network in Indiana and works to advance goals outlined in the State Plan for Independent Living. | <a href="#">INSILC Public Feedback Survey Dashboard</a>        |                                                               |
| 1/21/2026 | Public Feedback Survey | Public Feedback Survey Respondent | Other                           | In wayne county we have ILCEIN that serves people with disabilities                                                                                                        |                                                                                                                                                                                                                                                                                                                                                              | <a href="#">INSILC Public Feedback Survey Dashboard</a>        |                                                               |

|           |                        |                                   |                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                   |                                                         |  |

| 1/16/2026 | Public Feedback Survey | Public Feedback Survey Respondent | Home and Community-Based Services | Living in a rural area is difficult and support is limited. We have a center for independent living but they do not appear to be functioning as they don't respond to emails, contact forms from website, etc. I feel as if my area is always forgotten about because the bigger cities have more accessibility. There is limited opportunities for growth and the general public awareness/education on disabilities is severely lacking. | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 1/15/2026 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change                    | Minimum services in rural areas                                                                                                                                                                                                                                                                                                                                                                                                            | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 1/15/2026 | Public Feedback Survey | Public Feedback Survey Respondent | Transportation                    | Transportation options are expensive because I'm in the "Beyond ADA" area. On-demand options are only available through rideshare.                                                                                                                                                                                                                                                                                                         | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 1/14/2026 | Public Feedback Survey | Public Feedback Survey Respondent | Accessibility and Accommodation   | They are severely lacking. Requests for accommodations takes weeks ahead planning, so when a last minute meeting or such happens we are left without communication.                                                                                                                                                                                                                                                                        | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 1/14/2026 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change                    | Services are limited and honestly substandard for the most part. They are also if you know you know kinds of services; it's very hard to say that a newly blinded individual would easily find services for people who are blind. Transportation is especially a problem in rural areas, but even in the city, the expense is outrageous compared to other municipalities.                                                                 | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 1/14/2026 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change                    | Disability services are a long drive away from my rural county, and hard to access for some and hard on health for some. Access to connecting virtually should be promoted and agencies encouraged to develop more virtual access. Serving on SPIL committee via virtual access gives me the opportunity to be a positive voice and advocate for IL clients like me, rather than sit at home and watch TV. Thank you.                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |

|            |                        |                                   |                                 |                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                    |                                                            |                                                           |

| 12/10/2025 | Council Meeting        | Peter Nye (ACL)                   | Transparency and Responsiveness   | States ACL will revise and extend the CAP period due to implementation challenges despite meaningful progress; assigns Gloria Garton for training/technical assistance; commits to sharing specific concerns with INSILC.                                                                                                                                                                                                                                                                                                                                                                            | INSILC continues to work with Gloria Garton on State Plan implementation.                                                         | <a href="#">12.10.25 Council Meeting Transcript - WORD</a> | <a href="#">12.10.25 Council Meeting Transcript - PDF</a> |
| 12/10/2025 | Council Meeting        | Tim                               | Transparency and Responsiveness   | Requests a specific list of CAP actions taken and measurable results, and asks where the policy manual can be viewed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | INSILC has posted its public-facing policies and updates Correction Action Plan documents as changes occur.                       | <a href="#">12.10.25 Council Meeting Transcript - WORD</a> | <a href="#">12.10.25 Council Meeting Transcript - PDF</a> |
| 12/10/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change                    | When they do the redetermination they need to use the persons full name with their suffix such as Jr, III, etc. Every year they list my son as owning assets that belong to his father along with his father's bank accounts. If they did a search using his legal name with his III suffix his father's assets shouldn't be showing up.                                                                                                                                                                                                                                                             | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a>    |                                                           |
| 12/9/2025  | Public Feedback Survey | Public Feedback Survey Respondent | Home and Community-Based Services | We live in a very rural area and acquiring and retaining staff has been a critical issue. For my son to utilize his waiver He relies on family. Family already provides all of his natural supports and all of his staffing but the state capping a family member to 40 hours has created an enormous hardship on my son and his ability to utilize his approved CIH waiver. He only has a small family and only one family member that can be staff. We do not have very many resources here such as ABA or adult day care services or really anything after someone ages out of the school system. | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a>    |                                                           |
| 12/9/2025  | Public Feedback Survey | Public Feedback Survey Respondent | Home and Community-Based Services | Many families are lost trying to navigate waiver services and legislative ideas around the supports their families receive. There are many fear mongering ideas being spread even by case managers which is causing families to panic. Spreading information in people friendly language is extremely beneficial, and sometimes we have to just say we do not know what is to come yet!                                                                                                                                                                                                              | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a>    |                                                           |

|           |                        |                                   |                 |                                                                                                                                                                                                                                                                                                                                |                                                                                                                                   |                                                         |  |

|-----------|------------------------|-----------------------------------|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|--|
| 12/2/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Home and Community-Based Services | Educated and reliable DSP are extremely difficult to come by. They need dependable transport, themselves, to get back and forth to work, but also to provide care for the individuals. I believe there are good people out there to fill some of these positions, but they do not have vehicles to transport our individuals, and they can make more money elsewhere. Because of this inability to keep employees, our Behavior Clinicians spend so many hours training new staff over and over again. It is a waste of such a valuable resource, when they now have limited hours. I'm a newer Case Manager. My pay is not at all commensurate with the amount of time I put into and on behalf of my individuals. This entire field needs to pay better and there does need to be consistency across the board (e.g. Behavior Clinicians from one agency to another should all be allowed to provide community based therapy to our individuals.) Thank you. | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 12/2/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Home and Community-Based Services | Very limited in services for H and W waiver who also has behavioral issues. For example, Sycamore Services would be excellent for my son, but they don't take the H & W waiver. My son gets excluded.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 12/2/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Other                             | I am CEO of Meaningful Day Services we serve about 2500 individuals across the state of Indiana. Thank you for today's webinar.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                   | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 12/2/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change                    | The services provided by the many caring individuals should never be called a "rainy day service". Despite budgets being tight, these are still human beings involved, that are now being told how they must again readjust their lives to fit into a "normal world". It is hard enough having a disability without having to try 10x's harder to keep up the same pace as everyone else.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 12/2/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change                    | I help individuals all over the state as advocate/mentor. Individual in rural areas are scarily isolated with little or no services. In Marion Co DSP turnover so high; low pay. Need more Rep Payees in Trustee offices.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |

| 12/2/2025  | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change | Respite care providers hard to find unless can use other family members                                                                                                                                                                                                                                                                                                                                                                                                            | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 12/2/2025  | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change | Lake county doesn't seem as connected as the Indy area and we are excluded from Chicago if our child is only on Medicaid . We need so much more up in the Northwest portion of the state                                                                                                                                                                                                                                                                                           | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 11/19/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change | Disability services in my area has long wait time to sign up for services                                                                                                                                                                                                                                                                                                                                                                                                          | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 11/18/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Housing        | Services may be somewhat okay, but things like housing and transportation never get resolved. Without transportation in rural towns, some people are unable to leave their home whatsoever. This also impacts mental health. This state/country needs to do better!                                                                                                                                                                                                                | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 11/18/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Transportation | We moved to an area closer to services to make things easier for my son, but it turns out we are one mile off the bus route so he is unable to use the Transpo Access service to get to his day program. He was hoping to get a minimal part time job eventually and have transportation but that service seems very limited.                                                                                                                                                      | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 11/17/2025 | Public Feedback Survey | Public Feedback Survey Respondent | IL Philosophy  | It's not just affordable housing but accessible housing. And on the topic of guardianship, I would remind everyone on the Council of the dark history of guardianship being weaponized to control and dispense with "difficult" women. I would also remind the Council that these legal maneuvers continue to happen to women in the present day, and among other uses, hold women and children hostage to abusive relationships, especially women and children with disabilities. | The Council appreciates the dark history and grave nature of guardianships and does not endorse their use.                        | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
| 11/17/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Systems Change | You already know this area is underserved.                                                                                                                                                                                                                                                                                                                                                                                                                                         | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |

| 11/17/2025 | State Plan Committee Meeting | Jason                             | Public Input/Comment            | Questions whether INSILC sought required public feedback for the previous SPIL, why results weren't publicly available, and why committee members had not seen it.                                                                                                                                                                                                                                                                                                | INSILC acknowledges that the public feedback received during the development of the 2025-2027 State Plan was limited. INSILC has increased the opportunities for people to give input and feedback and is working to make it publicly available, like in this comment dashboard. Data and Input related to the 2027-2030 State Plan will be publicly reviewed at SPIL Committee Meetings and published as it is available. | <a href="#">11.17.25 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">11.17.26 State Plan Committee Meeting Transcript - PDF</a> |
| 11/17/2025 | State Plan Committee Meeting | Jason                             | Transparency and Responsiveness | Asks why a new council application deadline appeared before a major conference, limiting participation.                                                                                                                                                                                                                                                                                                                                                           | INSILC calls for new Council Member applications in the late summer each year independent of other special events that may be taking place.                                                                                                                                                                                                                                                                                | <a href="#">11.17.25 State Plan Committee Meeting Transcript - WORD</a> | <a href="#">11.17.26 State Plan Committee Meeting Transcript - PDF</a> |
| 10/9/2025  | Public Feedback Survey       | Public Feedback Survey Respondent | Systems Change                  | We need more services.                                                                                                                                                                                                                                                                                                                                                                                                                                            | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                          | <a href="#">INSILC Public Feedback Survey Dashboard</a>                 |                                                                        |
| 10/9/2025  | Public Feedback Survey       | Public Feedback Survey Respondent | Transportation                  | The Transportation network is very poor and limited. I cannot even get from my town of Bloomfield to Bloomington smoothly. Bloomington is somewhere many of us have to go by necessities since there are not many resources here. Things like descriptive video service for movie theaters barely exist around me. Sidewalks in my little town are not well maintained. The entire culture in this area is not very Disabilitie friendly or Disabilitie educated. | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan.                                                                                                                                                                                                                                                                                          | <a href="#">INSILC Public Feedback Survey Dashboard</a>                 |                                                                        |

| 10/9/2025 | Public Feedback Survey | Public Feedback Survey Respondent | Transportation | <p>Access to transportation is very limited or extremely difficult to navigate. I have to schedule car rides 3 days in advance. If I have an urgent need before then, the Medicaid cab program won't schedule. Leaving us to pay for a cab or waste community resources using an ambulance for a non life threatening emergency. Parking in certain areas lack enough or close enough handicap parking. There are certain government buildings and venues that limit parking time and give multiple tickets for parking over an hour. Some streets and bus stops lack sidewalks or unsafe sidewalks. Navigating community resources is extremely challenging for transportation. FSSA office in person is the only way to ensure food stamps and Medicaid paperwork is actually received, the website is difficult because I don't know how to use it. People with disabilities who are also homeless aren't able to get Medicaid or food</p> | INSILC and the State Plan Committee will consider and include this comment in the process of developing the 2027-2030 State Plan. | <a href="#">INSILC Public Feedback Survey Dashboard</a> |  |
